

INSTRUCTIONS FOR OVERSEAS WHITE CROSS HANDWORK

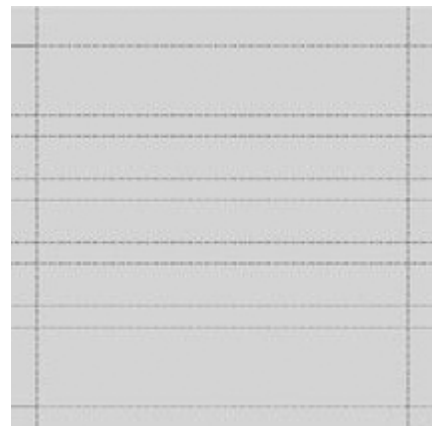

OPERATING ROOM MASK

Materials required:

2 yards 1/2" twill tape or white bias tape
An 8" x 15" piece of loose-weave cotton cloth or close-woven cotton gauze. (Do not use sheeting, percale or cotton as these restrict breathing)

Directions for making:

1. For mask dimensions cut an 8" x 16" piece of loose weave cotton cloth or close-woven cotton gauze. Fold material right sides together to make a double thickness. Sew the open end together using 1/2" seam. Turn so the right side is out.
2. Mark out the folds. Measure 1.5" from the top & mark with chalk, then from 1.5" mark, mark at 1". Fold first mark down to the 1" mark & pin. From first fold mark 1/2" then a 1" mark from the 1/2" mark & repeat fold. From the second fold mark 1/2" then a 1" mark from that. Fold 1/2" mark to 1" mark & pin.
3. Press folds with iron. (Folds are 1/2" underside and 1" over side/top of mask.)
4. Sew a straight stitch along both sides to hold the folds in place, before hemming it inwards. Hem the sides of the mask. Now, take 1 piece of 36" x 1/2" twill tape or bias binding, cut into 9" ties to be sewn on the four corners of the mask. Use 1/2" of tie end to secure to corners. A repeat zigzag stitch to hold ends securely. Hem ends of the ties so they don't fray.
5. Another type of tie is using elastic. Take two 7" pieces of strong elastic and sew to the four corners of the mask. Making a half circle on either end. Use 1/4-1/2" to secure elastic.

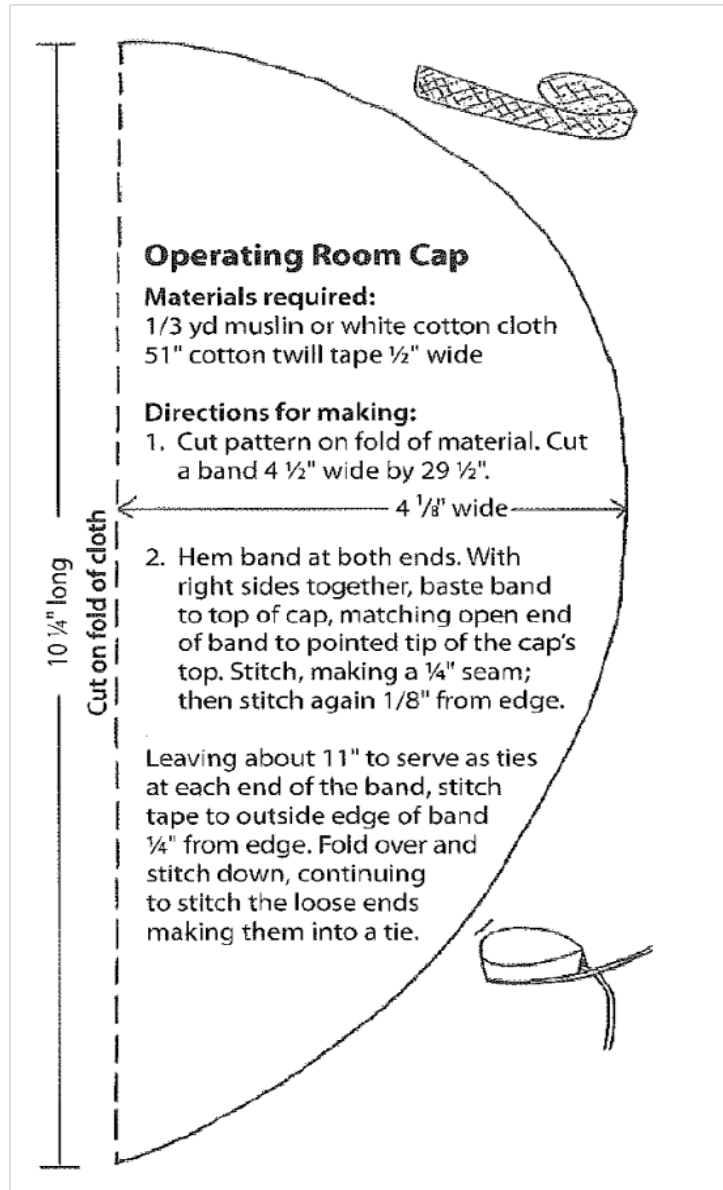

OPERATING ROOM CAP

Materials required:

1/3 yard muslin or white cotton cloth

51" cotton twill tape 1/2" wide
