

PROJECTS OCTOBER 4, 2017

Haiti - Restoring Eyesight to Children and Youth

SUPPORT RAISED

HAITI

GOAL

IM seeks to raise \$34,650 to help restore eyesight to thousands of children and youth in Haiti.

SUMMARY

Restoring vision is the primary objective for the Cap Haitien Eye Center, and in a poor country like Haiti, loss of vision can be debilitating.

At the eye center, the staff strives to offer quality care for more than one million people in northern Haiti—helping to restore the gift of sight to children and adults and giving them a second chance in life.

DESCRIPTION

Your gifts will help the Cap Haitien Eye Clinic provide quality eye care in the form of eye exams, medications, corrective lenses and surgery.

Restoring and improving vision for children and youth facilitates their learning, and with an education they have a better chance at a much brighter future.

SUGGESTED GIFTS

\$50 provides a box of injections used in the operating room

\$100 provides cataract surgery for one child

\$250 provides for two surgeries and glasses

\$500 provides a box of surgical knives

PRAYER REQUESTS

Please pray with Nzunga Mabudiga and staff of the Cap Haitien Eye Clinic that their ministry will be blessed as they offer sight to those in need.
