

PRAY POSTED ON JUNE 27, 2018

Pray for Kihomi Ngwemi and Nzunga Mabudiga training leaders and serving the people of Haiti in the name of Jesus.

BOB SANTILLI

Kihomi and Nzunga serve as a vital link between International Ministries and the Haitian Baptist Convention. They both visit and preach in churches and serve through a variety of ministries. Nzunga teaches theology at the Christian University of Northern Haiti, trains assistant professors in teaching and administers a scholarship program for elementary, high school and university students. He manages two projects: the goat and pig project for children and the clean water project for communities. He also administers the Cap-Haitian Eye Clinic. Kihomi works with families in the areas of counseling, women's health, Community Health Evangelism and economic development. She also coordinates and advises the women's association of the Haitian Baptist Convention, representing women of all the Baptist denominations of Haiti at international conferences.

They write - *"...I have come into this world, so that the blind will see..."* John 9:39.

Dear Loved Ones,

Greeting. What are all those children doing there? Are they in a school, a church or where are they? Those children are at the eye clinic for their eyes screening, testing and treatment.

They came from our Baptist Church of Pilate, about 4 hour drive from the Cap-Haitian where the eye clinic is. They are the lucky ones to have an early screening of their eyes. This is an effort between the eye clinic and the school administrators to help those children be successful in their learning for a better tomorrow.

Many children of their ages and many adults do not have that privileged to have that kind of early serious and thorough screening. They realize when it is too late that they eyes have been damaged beyond repair.

At the eye clinic they get thoroughly tested, treated and those needing eye glasses are given the best one can find on our market today.

Thank you for supporting the eye clinic so that children like these ones can have a better future.
