## STEP - China

SUPPORT RAISED

CHINA

### GOAL

IM seeks to raise \$34,000 each school year to enable 100 orphaned children in China to get an education

## **SUMMARY**

The small income from growing corn and wheat makes it difficult to provide what the boys need to stay in school. The Student Tuition Education Program makes it possible for them to continue their education, to be able to break free of poverty.

## **DESCRIPTION**

Honghong, a first-grader, and his brother Zhouzhou, a sixth-grader, live with their elderly grandparents on one acre of land in China. Their small income from growing corn and wheat would make it difficult to provide what the boys need to stay in school without the help of STEP, the Student Tuition Education Program.

STEP funds provide clothing, food and school supplies. This program currently sponsors 18 orphaned children in China, making it possible for them to continue their education so they can break free of the cycle of poverty.

This project will allow the Amity Foundation to expand the program to assist 100 children in China through STEP.

This project seeks to raise \$34,000 each school year to enable 100 orphaned children in China to get an education. The purpose is to provide a subsidy for clothing, food, school supplies and other necessities. This project is managed by Ms. Liu Li of the Amity Foundation.

## **SUGGESTED GIFTS**

\$260 covers a year of elementary school.

\$520 covers a year of high school.

## **PRAYER REQUESTS**

Pray with our partners in China that STEP funds will provide the necessary food, clothing and school supplies so these children can complete their education and grow into adults who work and serve with a spirit of love in their communities.
